## LES VOISINS D'ÉTABLIS

EXCEPTIONAL FURNITURE FOR UNIQUE SPACES

### PRÉSENTATION

We are designer cabinetmakers, we design and craft exceptional furniture for the hospitality industry, high-end catering and Wine Houses.

By working with carefully selected local timbers, we create unique pieces that highlight a material, a design and a unique craftsmanship to meet the demands of our clients.

Our workshop is located in France in the Vosges region.

### YOUR PARTNER OF CHOICE

We work directly on behalf of our clients or through decorators or interior architects. We are involved in the creation of unique pieces or series such as tables, side tables, seating, lighting, mirrors, frames, or tableware. We are able to support our clients in the manufacturing process from design and drawing or based on a third party's design. Our creations are customisable. We advise our clients on the choice of materials based on their aesthetics and technical characteristics ; we create samples to validate the materials and finish before the production of the pieces.

## SKILLS

Our dual expertise - design and cabinetmaking - allows us to fully meet our clients' requirements, integrating study, design, prototyping, and the manufacture of bespoke custom pieces, whether unique or in series, by employing unique skills such as turning, bending, or whellwrighting.

- Ability to produce our collections or bespoke creations
- Proficiency in working with architect plans (CAD mastery)
- Mastery and knowledge of locally sourced wood resources
- Mastery of fire safety standards (ERP) - CE standards for lighting, wood usage classes according to species
- Work on a unit or series basis (study - prototyping - series)
- Dedicated professional production tool
- Mastery of deadlines

## TYPICAL ASKS
